## CAREER OBJECT

Dedicated frontend developer skilled in React.js, Next.js, and Cypress, building responsive, user-centric web applications. Passionate about clean, maintainable code and Agile Scrum practices. Seeking a challenging frontend role to contribute expertise, foster continuous growth, and drive innovation in web development.

---

## WORK EXPERIENCE

### Junior Frontend Developer, TS4U

July 2023 - Present

- Built and maintained responsive web interfaces with React and TypeScript, ensuring cross-browser compatibility and intuitive UX.
- Collaborated with backend teams to integrate RESTful APIs for features like user dashboards and real-time updates.
- Fixed frontend bugs, optimized performance, and enhanced UI/UX for better user satisfaction.

### Projects

#### Sizzle & Spice (Sizzling Recipes Blogging Site for Passionate Cooks)

- **Recipe Sharing:** Upload and share recipes with photos, ingredients, and steps.
- **Smart Search:** Filter recipes by cuisine, diet, or cooking time.
- **Community Interaction:** Rate, comment, and discuss recipes with others.

Tech: React, Tailwind css, Express, MongoDB, Mongoose.
